

## General information

TSITOLOGIYA publishes papers on all chief problems of cell biology: morphology, physiology, immunology, biochemistry, molecular biology, biophysics. The Journal accepts the original papers not published previously and dealing with studies on both animal and plant cells, reviews, discussional papers, communications on new methods of investigations, reviews of books published the current year, chronicle. Communications on research meetings (congresses, conferences, symposia, etc.) for the Chronicle Section of the Journal are accepted only if submitted not later than 2 months after the date of the meeting. Besides, the journal accepts results of research obtained by methods of cell biology, even if the regarded problems be at the interfaces between cell biology and zoology, botany, chemistry, medicine, etc. In addition short messages of different content are published in the section "Letters to the Editor". The journal is of interest to a wide range of specialists in the field of cell biology including PhD students studying cell biology.

The journal is translated into English under the name "Cell and Tissue Biology". Due to the fact that the volume of "Cell and Tissue Biology" (the number of printed pages per year) is less than the volume of "Tsitologia," some of the articles are not translated into English and are not published in "Cell and Tissue Biology". As a rule, review articles are excluded from the translation.

**It should be noted here that "Cell and Tissue Biology" does not accept any manuscripts for consideration and publishes translated articles only.**

**The page limit of the manuscript** is 25 standard, one-size, double-spaced pages, including References, Tables, and Figure Legends. The length of reviews and theoretical papers is to be approved by the Editors. The manuscript must be accompanied by a submitted letter from the institution where the work is done and necessary documents.

The printed manuscript, signed by all authors should be submitted to the mail address of the Journal. At the same time full electronic copy should be emailed to the Journal. Authors should be easy of access by e-mail after submission of a paper.

### **The mail address of the Editorial Office:**

**N. Ya. Shubina** (Managing editor)

Journal "TSITOLOGIYA"

Mendeleevskaya lin. 1,

St. Petersburg 199034

Tel.: (812) 328-5255

Fax: (812) 247-0341

E-mail: [j.cytology@incras.ru](mailto:j.cytology@incras.ru) ; [redcyt@yandex.ru](mailto:redcyt@yandex.ru)

**I.A. Gamaley** (Coordinating Editor): [igamaley@incras.ru](mailto:igamaley@incras.ru)

The Editors of TSITOLOGIYA require that authors submitting their manuscripts to the Journal use the "Instructions for authors". All manuscripts submitted to the Journal must be accompanied by the letter to Editor and Contract for transfer of copyright to the Journal.

A form facilitating transfer of copyright can be found at the website of Saint-Petersburg publishing firm «Nauka» RAS: [www.nauka.nw.ru](http://www.nauka.nw.ru) and at the website of TSITOLOGIYA: [www.tsitologiya.cytspb.rssi.ru](http://www.tsitologiya.cytspb.rssi.ru)

Papers that do not meet the instructions will be declined without their review. Papers submitted to the Journal without the Contract will be dismissed.
